Backlight to the other side  
that road long and out of sight  
she put on her coat and drove all night  
at last! i knew that something there wasn't for me  
she repeatedly breathed in...while driving nowhere, she  
repeatedly breathed in

All along the way  
all along the way this is why I go ahead and turn away  
turn away from everything, everything that makes me  
She said Let me out  
there's just so much that I can take  
here every minute goes to waste

Headlights already off  
her blue eyes seem to find the right stop  
rely once more  
somewhere somehow along the line of feeling forged  
she repeatedly breathed in..while driving nowhere

All along the way  
all along the way this is why I go ahead and turn away  
turn away from everything, everything that makes me  
She said Let me out  
there's just so much that I can take  
here every minute goes to waste
