CHORUS

I can't change by myself no I can't live without You(2x)
Day by day, I'm a slave to my ambition to be free
Feel so dead in this web I've spun around me
The seeds of hate I've sown they grow to entangle me
Why can't I see that true freedom comes from You
Everywhere I see Your face en creation
But the love You've shown was not for me alone
My color of skin cannot determine what my heart
reveals
Why can't I see that true beauty comes from You
So free my mind
'Cause I want to live
