

Monday Morning "With You"

Visit "[With You](#)" on MotoLyrics.com

So undeserving fro where I've fallen short
Still You look at me with unrelenting love
I tremble at the sight of Your face
My soul is awakened by You
CHORUS
Your Love makes me high
Just You and I, Your love it makes me high
Underneath Your light byt somehow still so high
So indescribable to feel the touch of Your hand
So undeniable the feeling I can't understand
You hold me here inside Your arms I never want to
leave
So all I know is I need You so, so don't let fo
With You I'm never alone
You're all that I'll become
So let Your light shine through et all
This love is unbelievable
