i spend my nights alone
wishing you would come back home (yeah)
i apologize cos i know that i have done you wrong
(yeah)
and i don't wanna spend another day
thinking bout the games i played
girl i'm bout to go insane

did you get my message shorty
just called to say i'm sorry
and i just can't believe
that you just up and leave me
and girl these words are true
i wrote this song for you
so baby tell me what i'm suppose to do (yeah)

i'm sitting by this phone
waiting for your call back
cos i know the way i did you was all back
ain't heard from you lately
it's driving me crazy
missing my baby
baby it's hard for me to let you go
it's so hard for me to let you go (go) (oh)
i can't let you go
just can't let you go
you're making it hard for me to let you go

i remember when you said you'll be there
always there for me
even when the times got bad
you'd never leave me (alone)
on the day you left me
it ripped me apart (for sure)
it's the part being without you girl
it tears up my heart

did you get my message shorty
just called to say i'm sorry
and i just can't believe
that you just up and leave me
and girl these words are true

i wrote this song for you
so baby tell me what i'm suppose to do (oh)

i'm sitting by this phone
waiting for your call back
cos i know the way i did you was all back
ain't heard from you lately (lately)
it's driving me crazy
missing my baby (baby)
baby it's hard for me to let you go
it's so hard for me to let you go (go) (oh)
i can't let you go
just can't let you go
you're making it hard for me to let you go

i know i did you wrong
don't give up girl i can change
just listen up before you walk away (let me explain)
these girls are like a drug and i'm addicted
back then i needed time and space
to find what i was missing (oh no)
but you're the one i want (ah ha)
the only one i love (oh yeah)
you're the only one i'm thinking of
baby please don't go
you're making it hard for me to let you go

i'm sitting by this phone
waiting for your call back
cos i know the way i did you was all back
ain't heard from you lately (lately)
it's driving me crazy (crazy)
missing my baby
baby it's hard for me to let you go
it's so hard for me to let you go (go) (oh)
i can't let you go
just can't let you go
you're making it hard for me to let you go
