

Crimea "Light Brigade"

Visit "[Light Brigade](#)" on MotoLyrics.com

We take no prisoners, leave nothing, only ghosts.
Now everybody knows,
We take no prisoners, leave nothing left alive.
Don't understand who I am or how it all began.

CHORUS:

Send in the couch potatoes,
Lowest common denominators.
Bring down the hit parade,
Send in the Light Brigade.
We are not alone; there was footprints in the snow,
Now everybody knows,
We are not alone, there was sightings of UFOs...
Don't understand who I am or how it all began.

CHORUS

Jerusalem, Nazareth, Paris,
Houston, Mexico City, Berlin, Madrid.
Burn down all your cities, your precious cities
Will be destroyed.

Send in the Light Brigade (x4)
