Teradactols take on the helicopter gunships.
Brace yourself, this is the appocolypse.
Two worlds colide, two worlds colide,
In a blaze of black and white the moon explodes in the
dark, dark, dark night.

See this cave, see this canyon,
See this black hole, see this casm.
See the storm brew, feel the Earth move,
Take a quantum leap with all the other freaks.
It's not easy being weird in a world with no idea how.

More therapy.
Throw down your... oh, sorry, how stupid of me.
'Til kingdom come, 'til my time on Earth is done.

In a blaze of black and white the moon explodes in the
dark, dark, dark night.

See this cave, see this canyon,
See this black hole, see this casm.
See the storm brew, feel the Earth move,
Take a quantum leap with all the other freaks.
It isn't easy being weird in a world with no idea how.
