He got his collar up walking through school
everyone knows him as Mr.Kewl
Pearly white teeth ear to ear grin
Not 1 but 2 different girlfriends
has messy hair dresses like a slob
He can't even hold a steady job
wears his hat off to the right side
every relationship is going to die

He's what every girl wanted
It ends quicker than it started
Cuz he's

A rockstar
Overrated
his anger is his own demise
Brown hair
blue eyes
tripping on his ego just to find
That he is hollow in side

It's midnight at his rock show
She's front row but he doesn't know
screaming out his name he's caught up in fame
he's the only reason why she came
