I'm up till 2 in the morning late night again
chained by the ankle to everything will it ever end
Then I see a glimmer of hope shining across my desk
a picture of you and me at the school dance
the stars shown bright as they light up the sky
Just as bright as the night we said goodbye

Chorus:

Don't want to spend the rest of my life like this
with you out the picture
Don't want to spend the rest of my life like this
with you out the picture again

Verse 2:

Things happen for a reason I hope you know
It wasn't my idea I had to choose where to go
Though we might be away a few thousand miles
you still find ways to make my heart seem to smile

Chorus:

Don't want to spend the rest of my life like this
with you out the picture
Don't want to spend the rest of my life like this
with you out the picture again

Bridge:

But everything goes a little bit faster now
Boredom seems to repeat now that your gone
Everything just sucks

Chorus:

Don't want to spend the rest of my life like this
with you out the picture
Don't want to spend the rest of my life like this
with you out the picture again
