I can't walk on water  
But you know I would try  
As long as I could have your love  
Waiting on the other side  
I'd stand up to temptation  
I said yes to yesterday  
My love is a rock  
And it won't waste away  
Tried and true, my love keeps on coming  
Right on through, all those who  
Try to take away my heart, ohh  
Wherever I go, whatever I do  
I'm always right with you  
Well I've been tried, and honey, I've been true  
You're my solu possession  
I can't do without  
So I won't make even one mistake  
That will shake this solid ground  
Nothing's gonna throw me  
Cause I can't go too far  
With a love this strong  
Pulling on my heart
