"True"

Visit "[True](#)" on MotoLyrics.com

I've seen angels on walls, angels dressed in white
Angels in my dreams and angels of bright light
But I never saw an angel until I saw you
It's you my lover that has made me feel brand new
'Cos I wouldn't have nothin' if I didn't have you
Baby we got something - something that is true
When I thought there was nothing left
you discovered there was more
When I thought there was no escape
you found another door
Whilst lost in love you carried me away
Nestled in your wing to live another day
'Cos I wouldn't have nothin' if I didn't have you
Baby we got something - something that is true
True True
Baby we got something - something that is true
Baby I'm in lovin' with you
It's the angel in your eyes that gets me feelin' fine
It's that loving feeling, together forever in time
I'd live a thousand lifetimes to spend one with you
This must be it babe, please say I do
'Cos I wouldn't have nothin' if I didn't have you
Baby we got something - something that is true
Repeat chorus
