Just pick up the broken bones  
'Cause down the dumps ther's clams and stones  
Anxious 'bout your shadow you fear your soul  
With civvy life you clash and you burn  
Yet you gotta feed the monkey that's been trained as  
your life  
Again? Not yet another junkie  
Anxious 'bout your shadow you fear your wits  
Come face your life, you'll burn

Give up, throw up, give up  
Beat another stacked deck even as it turns to you  
Hidden and discovered more thru' than through  
You need a knife to slash and to turn as you  
Gotta leave security you bury your eyes  
A friend? Again another junkie  
Leavin' all my friendless to fear their wits  
Become a face, you'll burn 'cause it's the

All my dreams, they fade away  
All broken at the end of the day  
You're gone and I'm  
Left without my certainties to stay

Pick up the broken bones  
'Cause down the dumps ther's clams and stones  
Anxious 'bout your shadow you fear your soul  
With civvy life you clash and you burn  
Yet you gotta feed the monkey that's been trained as  
your life  
Again? Not yet another junkie  
Anxious 'bout your shadow you fear your wits  
Come face your life, you'll burn 'cause it's the

All my dreams, they fade away  
All broken at the end of the day  
You're gone and I'm  
Left without my certainties to stay

Don't call it a comeback  
'Cause this ain't no combat  
As we launch the second phase that you face

You know we make deep impact  
None of our hopes are gone  
'Bout all that's said and done  
As we arise from the dead  
We are second to none  
No phantasies have drifted  
We still believe we're gifted  
You're witnessin' today the artistic headwind has  
shifted  
None Of our hopes are gone  
'Bout all that's said and done  
As we arise from the dead  
We are second to none

All my dreams, they fade away  
All broken at the end of the day  
You're gone and I'm  
Left without my certainties to stay
