ahhh  
I took everything you said  
ahhh  
Harder than we should  
Are we wanting more than to try to sell you out?  
Are you one? you one? you one?

He's trying to say we can't  
Yes I can!  
And you can't have all that you want  
Yes I can!  
And when your wrong I'm still not right

? ?  
And throw it back against the wall  
You asked me how  
And what if I resent you now?  
And what if I can't trust in anything you say?  
You trying to say we can't?  
Yes I can!  
You can't have all that you want  
Yes I can!  
And when your wrong I'm still not right

Let's start again  
Replace it  
Let's start again  
Erase it  
So move along and face it

You trying to say we can't?  
Yes I can!  
You can't have all that you want  
Yes I can!  
And when your wrong I'm still not right
