And now you will know, what you will say,  
let it be known, you do what you say...  
You say what you know.  
I get confuse that me is me and you is you,  
if that's the way it is supposed to be, when we are  
together.

I wish I was there for you when he died  
I know now. You stay when you stay and go when you  
go.  
If that's the way it is supposed to be.  
I try, but some times things get hard...  
When we are together. I wish I was there for you when  
he died.  
When that's the way it is supposed to be.

I hate this part of me. I will hate myself, I realiza  
hapiness dies when I'm not with you.  
I don't want this to die, I don't want to make you cry.
