Wait we'll have to wait our turn
We'll have to fall in line to follow, live, love and die
If we're all the same, get born, grow, married and die
We all hate long good byes so don't bother and just die
End it now

If we're all the same, where did we come from and why
are we here?
If we're all the same, where did we come from?
What do we do when it all dies and we're all left here all
alone?
We always lose sight of everything

Wait, we'll have to accept the change
Even though we're all still the same, follow, live, love
and die
I have a mission, I have a goal that's why
I'd rather live now then die knowing we only have one
chance

If we're all the same, where did we come from and why
are we here?
If we're all the same, where did we come from?
What do we do when it all dies and we're all left here all
alone?
We always lose sight of everything

We have one chance, one life, one death, one time to
smile
One time to try, one time to die, one time to smile
We all die one at a time, one at a time, one at a time
We all die one at a time, one at a time, one at a time

Hold on, hold on, hold on
Hold on, hold on
