"The Way"

All my life I've waited
For something to seem real
All my life I sat alone waiting patiently
Trying to find that something that might fail

Cause it's the way I am
Mixed with the way I should be
Cause there's a landslide coming
Coming to wash over me

Cause it's the way
It's years since I've been tempted
Years since I've been tricked
A longtime I've been waiting
To find out what ive missed
Tried to find that someone that might fit

Cause it's the way I am
Mixed with the way I should be
Cause there's a landslide coming
Coming to wash over me

Cause it's the way I am and I am
All my life I've waited
For something to seem real
All my life I sat alone
Waiting patiently

Cause it's the way I am
Mixed with the way I should be
Cause there's a landslide coming
Coming to wash over me
Cause it's the way I am
Cause I am
