who's to say the way i am  
is not to blame on hating love.  
let's be tragic, let's be sad.  
these eyes can't seem to see the way i am.

all for love. you wait way too long.  
all for love.

cry and sob while you wait for him.  
this kind of love won't last it never did.  
what if this had never happened?  
what if we had never seen the light of day?  
what if this had never happened?  
what if we had never met at all?

all for love. you wait way too long.  
all for love.

what if...  
this had never happened?  
we had never seen the light of day?  
this had never happened?  
we had never met at all?
