Verse 1:

You know I've tried to run away
I've gone over the line and out of your way
I'm lucky that I'm standing here today
and as these fears have mounted
I soon realize that you've got me surrounded

Chorus:

All around me
I know you'll always be
all around me
you're always all around me

verse 2:

you know I feel all alone
with nothing to say and nothing to show
despite all I've done you haven't forgotten me
as these fears have mounted
I soon realize that you've got me surrounded

Bridge:

You've got me surrounded to where will I run?
You've got me surrounded, You're all around me
Chorus
