(Verse 1)

..And we fall apart again  
Say goodbye to another friend  
Pink and black rainbows never end  
When you smile, it's all pretend

(Chorus)

Fairy tales go well with my own life..  
Pretty girls, gold, and pearls are what I like..  
Fairy tales go well with my own life..  
Dreams are swell, but fairy tales are better..

(Verse 2)

..And I've heard your voice in my head  
Saying to take back the things that I've said  
You're painting clouds deep shades of red  
When you laugh, it's all pretend

(Chorus)

Fairy tales go well with my own life..  
Magic spells and wishing wells are what I like..  
Fairy tales go well with my own life..  
Dreams are swell, but fairy tales are better..

(Bridge)

I've heard it before again and again  
When you cry, it's all pretend

(Chorus)

Fairy tales go well with my own life..  
Magic spells and wishing wells are what I like..  
Fairy tales go well with my own life..  
Dreams are swell, but fairy tales are better..
