So youre right, and i'm always wrong. i'll be sure give a
fuck as soon as i get out of this car. i'll be sure and
write. someday i'll leave you behind...someday when i
change my mind. maybe i'll just forget to try. but
maybe we'll be all right, maybe we wont. maybe i'll hold
you when you cry, but maybe i wont. its raining outside,
of course we have to fight. i'm not the only one who
gets hostile sometimes. lookout! somethings in the
road head. lookout! ahead....somethings in the road
ahead. dead. dead. dead. dead. dead. dead. dead.
