Cold light, vibrating low  
Bundles of sound spiraling slow

No fear, more sense  
More to be felt for all the beings in the know

Chorus :  
Lose hold  
Just let it go  
Give in, give up, abandon yourself to the flow  
Lose hold  
Just let it go  
Give in, give up, abandon yourself to the flow

Live moon, mother of all  
Calling those who still wonder in the night  
Live moon, unveiling now  
The part of us already breathing in the light  
Do not seek control  
Do not seek shelter  
The light will find you wherever you might go  
Do not seek control  
Do not seek shelter  
The light will find you  
The light will find you

(Chorus)

(Let it go, just let it go)

(Let it go)

(Abandon yourself to the flow) (8x)
