If you feel this is the way for you
If you hear that kind of call
If you feel you're really made for this
If you find out that's what you have to do

Become indifferent
Lock yourself out
Make a lot of noise
Or live by the rules

If you feel this is the way for you
If you hear that kind of call
If you feel you're really made for this
If you find out that's what you have to do

If that's your choice
If it can help
If you just need that
But why ask me

If you feel this is the way for you
If you hear that kind of call
If you feel you're really made for this
If you find out that's what you have to do

If you feel, if you hear
If you feel, if you find out

If you feel this is the way for you
If you hear that kind of call
If you feel you're really made for this
If you find out that's what you have to do

If you feel, if you hear
If you feel, if you find out
