i heard about the party that she went to
and i heard some shit went down
but ive got to say, the worst mistake hes ever made
was letting me find out

whats the point of running,
when you know that i will find you anyway?
cause ive got just a few quick things id like to say
but i think my fists will do the talking

i cant forgive her
for what she did, or who she did it with
im going to give you what you deserve
for what you did, and who you did it with

you think that this will all blow over dont you?
well what makes you so sure?
how could you be so fucking ignorant?
im waiting for you, right outside of your front door

i cant forgive her
for what she did, or who she did it with
im going to give you what you deserve
for what you did, and who you did it with

and i wont let this go
this i promise you
theyll never rip my hands from your throat
im never letting go

and its just too late to make this right
to make this right
and i dont think that youll make it out
of here alive

so before you go and make the same mistakes again
i will let you know, you fuck with her
youre better off dead
youre better off dead
youre better off dead
