

Computer Perfection "How I Won The War"

Visit "[How I Won The War](#)" on MotoLyrics.com

You know them fighting words don't worry me
Cuz talk is cheap and quiet's free
So shut your mouth and let's hang out
I've got a lot of something to think about

O let's lay here in the grass
Cuz there ain't nothing better to do
I feel young and old and dumber wiser
Brighter bluer kinder truer

We'll never be esprit de corps, I know
I call it quits and win the war.

O let's walk in the wood
Cuz there ain't nothing better to do
And when the morning comes with golden laughter
We'll hang our sorrow from the rafters
You know them fighting words don't worry me

Because we'll never be
I give that's how i won the war
I quit that's how i won the war.

If what you feel is chemical
What you feel is beautiful
