Rainy night and we worked all day; We both got jobs
cause there's bills to pay; We got something they cant
take away; our love, our lives

Close the door, leave the cold outside; i dont need
nothing when im by your side; we got something that'll
never die; our dreams, our pride.

My heart beats like a drum (all night); flesh to flesh,
one to one, and its alright, ill never let go cause theres
something i know down deep inside.

(chours) you were born to be my baby and baby i was
made to be your girl. we got something to believe in,
even if we dont know what that is, only god would know
the reasons but i bet he had a plan cause you were
born to be my baby, and baby i was made to be your
girl.

liight a candle, blow the world away; table for two on a
tv tray; it aint fancy, baby thats okay; our time, our way.

so hold me close, better hang on tight; buckle up baby
its a bumpy ride. we're two kids hitching down the road
of life; our world, our fight.

my heart beats like a drum (all night); flesh to flesh,
one to one. its alright, and ill never let go cause there's
something down deep inside, you were born to be my
baby and baby i was made to be your girl.

(chours)
