reflection of a long rotten
distorted soul's harmony
a vision that is best forgotten
moribund to mystery

- * sacred rites in soul's first - decrying of my innermost
- * harvest on the emotional field - barren and dehumanized
- * cultivated profanity - ideal soil desolate
- * bleeding myriad demi-beings - outliving death

drag me to my knees screaming
a dirge for my weeping soul
the underworld, devoid of believing
lower divinities died unwhole

the spine of time lies scattered
shattered on my molten wings
black soul's dawn twilight death
just ashes on my unclean breath

a spiral satirway, descend into gray
mortality passed into decay
religious path leads astray... away
chorus:

trapping for eternal soul
the privacy of my hell
illusion from a bunted mind's imagination
reminder of our sins
meets me with a smile

bleeding eyes of the infant christ
bloody tears stigmatized my fears
the falling was pushed, into the muddy ground
to the netherworld, where dawning souls...
drown

lead: [mikko]

broken, line
between life and death divine
decease, stillborn

to a new beginning, i go...
false, temptation
towards the underworld i'm drawn

reflection of a long rotten
distorted soulles harmony
a vision that is best forgotten
moribund to mistery
