(O.Alaluf)

In the everlasting fight against the system
we don't bow down we rage against em'
no shitty rules, fuck the American way
you'll never get rid of us, were here to stay
it's time for a revolution, line up the warfare instution
when the patriots come out and play
it's time for a mother fucking judgment day
suicidal fantasies , runnin' through my head
wake up in the morning find myself dead
anger is the bomb and someone lit the fuse
it's time to torch the enemy and end the abuse.
