Here we go on this war path ,
come again to avenge the wrath
Take the fight to the 7th level
lift the base&raise; up the treble
With my shotguns locked&loaded;;
in their chests two shells exploded
Lift the flag up hold it high,
Right against the big black sky
I'm the mastermind of this operation,
My lyrics blastin around the nation,
Lyrical assaults blastin' through their heads
Hung up your parents
(Yeah) they're all dead
