When you think your safe  
Everything will turn around  
Hit you in the face  
And prove that you are wrong  
When you least expect it  
You'll fall on the ground  
Even though you thought  
It was just a round

You are a self destructing  
Self controlling missile  
You are a terrible  
Horrifying nightmare

When your at your last end  
And you just wanna die  
Dont turn around  
And dont go and cry  
When you need someone  
To stay next to you  
You might just want to die  
But dont be a fool

You are a self destructing  
Self controlling missile  
You are a terrible  
Horrifying nightmare

Im about to explode  
Your about to fly  
I dont wanna be alone  
But you just wont except it  
Except it..

You are a self destructing  
Self controlling missile  
You are a terrible  
Horrifying nightmare
