So you think you are the only one who feels like you do
The only one that's been getting screwed
The only one who knows how it feels
To be so hurt, no one could feel like you

Just take one step back and open up your eyes
There's so many of us out here with the same
problems in our lives
We're all searching for direction, how and
which way to go
The answer to life's riddle, is what it kills to
know

[Chorus:]

Life's not fair, nothing's fair
You said you listened but did you hear
The fine print reads, there's no guarantee
This life is what you make, but nothing comes for free?
There is a price

Have you ever stopped and listened to yourself
As you piss and moan from your self-pitied shell
There's a reason life has it's twists and
turns
Keep your head up kid, there's so much left to
learn, you're not alone

Just for one fucking moment stop and think about this
life
How unfortunate it is that many never think twice
When they walk past someone homeless turn their
head and walk away
Then go on with their lives? Oh Whoa is me!

(Chorus 2x)
