Can you here the winds of change  
As they're blowing on the streets  
From the school yards where we ran  
To the cafes where we eat  
From the lips of common man  
Burns a passion like the sun  
This is the sound of revolution

[Chorus:]  
Revolution  
What we need is a...  
Revolution  
To break the chains of this disillusioned  
System that's fucked  
So put your fist up and Revolt

Can you hear the winds of change  
As their knocking on the door  
Reciting words of wisdom  
The truth and so much more  
From the lips of common man  
Burns a passion like the sun  
This is the sound of revolution

[Chorus]

What are we waiting for? [3x]  
*Revolution ...what we need is a* [4x]
