I've been in love before
It sure werent nothing like this
I thought I knew the score
I thought hell a kiss is just a kiss but this is

Better than love
What we got here
Is better than love

I tried to deny it
I tried to say that it wasn't me
But this feelin' inside won't be denied
I guess I'll just have to let it be

Better than love
What we got here

Is Better than love
None of that
This is better than love

Love's done us wrong so many times
Look at the damage it has done
Who's doin' time for all of those crimes
I tell you babe I don't think I'm the one

Better than love
Oh yes this is
Better than love
What we got here is
Better than love
None of that shit
It's better than love
