[Intro]

Put your hands up in the air, air
Wave em around like you just don't care
Just put em in the air, air
Wave em around like you just don't care
Say yeah, yeah, DJ spin this record right here
Say yeah, yeah, now watch me swi-swi-switch it up

[Verse 1]

Nah, nah, nah
Now I am not an earthling I'm from another planet
Not even a Martian they don't know what to call it
Maybe I should travel down to earth take a stage
And rock the crowd for about 100 days
In a whole different country, in a whole new land
Auto-Bot transform into a whole new man
WaKiL if you're familiar you'd probably agree
That I don't need swagger cause swagger needs me
Nah, ha
Now hands in the air right now
Get em high in the sky never ever let em ever come
down, down
Now if you feel it say yea, yea
Cause I got what you need right here

[Chorus]

Put your hands up in the air, air
Wave em around like you just don't care
Just put em in the air, air
Wave em around like you just don't care
Hey, yea wave em around like you just don't care
Hey, yea now watch me swi-swi-switch it up
([Background:] Around and around and around yea)
[x2]

[Verse 2]

Not only am I an MC, but I'm a microphone controller
Flip my style up on ya, just watch how I cross over
Call me la-tola and I like my woman
Shaped like a mmm kinda like a Coca-Cola bottle
Cause 'ye said to get the girls who ain't on TV

Cause they got mo' ass than the models ha
You'll never catch me off the track like a nappy weave
Since Nelly told me I was Kansas City's masterpiece
Peace! Yo "Time's Up" like Jadakiss
They hate that I got more "Will" power than Jada's Kids
I know you like it say yea, yea!
Cause I got what you need right here

[Chorus]

Put your hands up in the air, air
Wave em around like you just don't care
Just put em in the air, air
Wave around like you just don't care
Hey, yea wave em around like you just don't care
Hey, yea now watch me swi-swi-switch it up
([Background:] Around and around and around yea)
[x2]

[Bridge]

I'm a star, I'm a star
You know why?
Cause all of you are
And you shine on me
So keep shining on me
And word of mouth is hip-hop died
Little do they know that it just got signed
While everybody else tryna catch up, ha
KC stand up, up [x5]
