Na, na, na, na
Eenie, meenie, miny, mo
Catch your lover by the toe
If they holler, actin' bold
Tell em I can pack and go

I'm in an outerspace
Of outerspace
A thousand miles away
Gone without a trace
Real police couldn't even believe
What I do
Not even C.S.I.
'Cause see as I do
Baby, I'm what you call a big dealer
I mean for realer
White killer who iller the others
Of Milli Vanilla
She looking at me sideways
As if I was clownin'
Like I can't skip town
And no longer be around
You were frown
And hide behind the tears
Of a clown with a smile
That always seemed to put it upside down

I don't need you to tell me about my behavior
Ain't nobody tell me how to behave
Is this a better way I'm living yeah
I'm living life my own way
My own way, my own way, my own way
You should be begging me to stay
Begging for me to stay [x8]

Eenie, meenie, miny, mo
Catch your lover by the toe
If they holler, actin' bold
Tell em I can pack and go

I think she like it

Yeah, what she thinkin'
I'm a scooper of nike
Around ninish
My saromagi, baby girl
I am the flyest
Not to be a reggae, baby
I don't even try to
If I was able
I'd probably give away my title
But then I'm more than likely
Wouldn't be the man that I am
Just love me how I am
God nab it
Quit acting like Jazz Madis
Julia Jazz Hutchet
Maybe you can learn to accept me how I am
Then we can coincide
And get wretched, wretched
Ha, ha, you're laughing
Bet I can keep you happy
But rule number one is fun
So don't you be a lazy bum
All the way to getting something
Live or gettin little'
I'm saying hon'

I don't need you to tell me about my behavior
Ain't nobody tell me how to behave
Is this a better way I'm living yeah
I'm living life my own way
My own way, my own way, my own way
You should be begging me to stay
Begging for me to stay [x8]

Eenie, meenie, miny, mo
Catch your lover by the toe
If they holler, actin' bold
Tell em I can pack and go

Na, na, na, na I don't need you judging me
Na, na, na, na I just want you loving me
Matter of fact just give em all up on to me
If you gon' be like that I don't
Need you and your company
Na, na, na, na I don't need you judging me
Na, na, na, na I just want you loving me
Matter of fact just give em all up on to me
If you gon' be like that I don't
Need you and your company
Na, want your company
Na, want your company

I don't even want your company
It goes, it goes, it goes

Eenie, meenie, miny, mo
Catch your lover by the toe
If they holler, actin' bold
Tell em I can pack and go

I don't need you to tell me about my behavior
Ain't nobody tell me how to behave
Is this a better way I'm living yeah
I'm living life my own way
My own way, my own way, my own way
You should be begging me to stay
Begging for me to stay [x8]

Eenie, meenie, miny, mo
Catch your lover by the toe
If they holler, actin' bold
Tell em I can pack and go
