Things haven't benn the same since then  
A cold feeling embraces me pushing me as deep as it  
can  
Even though it's hurting me, I'm not sure if it's time to  
stand again

Can you fell it? You just cannot deny  
I have always been there supporting you

Sometimes you must live the pain  
Getting hurt will make you stronger  
'Cause even in deep pain you gain  
Learning that life can be unfair

No matter what you feel someone will away dare!

Living day by day, trying to heal the pain  
That surrounds you, driving your life away
