I wanna leave this afternoon
I'm heading to another
Hot boy party
It's a full moon

Come on boys
Let's start to play
In the heat of the day
Boys circle jerkin
Trading up and servicing
Hot boys jerkin, still come
At the hot boy party
At the hot boy party

We got sex
So if you got what it takes
And need some sharing
At the hot boy party

Boys like watchin
All the sexy moves you're droppin
Might be one lover that you wanna take home
But right now, share and enjoy
Every boy at the hot boy party

Hot boy party

Boy, boy, busy, busy
Start the show
And rub me rub me
Living while we can
At the hot boy party
At the hot boy party

Getting it on we like to party all night
Sexy lovin at the hot boy party
Get it on right on!
Get it on right on!
Watch the boys cheer you on
Snap your finger
Your hands and 10 others
Will be having a hot boy party

Rub me living while we can
If you're just watchin
Start playin at the hot boy party

Hot boy party

Yeah let's go!
Boys like to fuck
Every hour everyday
We like to suck
If you watch
When it's wrong,
We like to fuck
If you're black, if you're white
If you're cut or uncut
Curvin to the right or
Curvin to the left
Hangin to the right or
Swingin to the left
Boys like to fuck
When it's loose
When it's right
Boys like to fuck
Boys like to suck

Boys like jerkin
Boys like watching
All the sexy moves you're dropping our way
So if you're so damn horny
Then do the whole party
Stop watchin, start playing today
