Do you ever wanna sing? Dancing making people
scream.
Thats a star.
Do you ever wanna perform for pay, making people
say,
That
Shine on everyone near and far
How do you get there and what do you gain?
NOTORIOUS!

It can happen to you
To yourself be true
If you want it to
All your dreams come true
Catch a rising star
You can go far
If you know who you are
It can happen to you

Focus and drive
Bring dreams to life
Ask any legend or icon alive
V-I-P, celebrity
That
Somebody famous, distinguished strive
A superstar pin-up with eminent fame
How do you get there and what do you gain?
NOTORIOUS!

It can happen to you
To yourself be true
If you want it to
All your dreams come true
Catch a rising star
You can go far
If you know who you are
It can happen to you

A legendary prominent well-known big wig
That
A leading light of luminary brilliance
That

A picture, an image, a symbol, a sign, a logo
An emblem, a media magnet of the 3rd kind
That
How do you get there and what do you gain?
NOTORIOUS!

It can happen to you
To yourself be true
If you want it to
All your dreams come true
Catch a rising star
You can go far
If you know who you are
It can happen to you

Forget all the schemes
And follow your dreams
Push yourself to extremes
It can happen to you
It can happen to you
To yourself be true
If you want it to
All your dreams come true
