Feeling your body so cold next to mine  
Feel it defending emotions denied  
Hiding your secrets that lie deep inside  
Leaving you silent  
You can't pretend that I let things go by  
Not even trying to look in your eyes  
To see their colour changing to blue  
When you grow silent  
Now can you hear me  
I'm talking to you  
Don't let the close down and live without you  
We've had so much in our lives you and me  
To live in silence  
Tonight I want to know  
If you say you love me  
Say it loudly  
I just wanna know  
When you say you love me  
Is it from your soul  
Is it from your heart  
There's something special  
That brings you and me  
So close together its all there to see  
So many times we made love in the night  
And spoken in silence  
Tonight I want to know  
If you say you love me  
Say it loudly  
I just wanna know  
When you say you love me  
Is it from your soul  
Tonight I want to know  
If you say you love me  
Say it loudly  
I just wanna know  
When you say you love me  
Is it from your soul  
And I want you to stay!!
