We kick crowns, kings, and Adidas  
We kick crowns, kings, and Adidas  
Get high bitches, get high niggas  
We kick crowns, kings, and Adidas  
This shit is fresh...

Platinum chains and rings is  
All the brother knows now  
Girl, I want you the first to know that  
Gold is back in town  
So you gotta serve this royalty  
Believing in me and my dreams  
Serving this royalty right  
Trust what I say and what I see and we can get it

The dream is real if you serve this royalty  
Leave your mama's house, make her proud  
Serve this royalty right  
From the valleys of Spain to the snowed banks of Maine  
We can run this game  
If you serve this royalty right

People think that I'm lazy  
People think that I'm this fool because  
I give a fuck about the government  
I didn't graduate from high school  
But I learn how it's done  
So I'm gonna be number one  
Thank you Jesus, for my mama  
And I thank you bitches, for my money
