(Chorus)

(Verse 1)

There's this girl in my life
I met a year ago
I'm singing to you
Just to let you know
That you're the only girl
Who makes my life glow
And no matter what we go through
I'll never let go
Not once in my life
Have I felt this way
You keep running through my mind
Every night and day
Hey, never pay attention
To the words they say
Just hold me close baby
And we'll be okay
All these feelings for you
I must confess
That these other girls are quizzes
And, baby, you're the test
I'll tell you you're beautiful
Even if you think you look a mess
You always look amazing
'Cause girl, you're the best

(Chorus)

(Verse 2)

I knew this could be something
Way back from the start
I won't be Taio Cruz
I'll never break your heart
Your love's priceless to me
It's way off the charts
And we're like bondo, baby
Nothing can tear us apart
We'll be happy all the time

Not a moment will be blue
I'll be your biggest supporter
In everything you do
Was it love at first sight?
Now, I believe that it's true
Because in a crowded room
The only one I see is you
Our love is so strong
Everyone can agree

That it's like love times ten
To the thousandth degree
We're a better combo
Than peanut butter and jelly
No one can come between us
It's only you and me
Through thick and thin
I'll be by your side
Like Sonny and Cher
Bonnie and Clyde
They say you'll never know
If you have never tried
Let's see where this takes us
I'm in for the ride

(Chorus)

(Verse 3)

I can be your Romeo
If you be my Juliet
We'll make so many memories
That we'll never forget
And cherish every moment
We won't ever have regrets
I'll be by your side all the time
So, baby, don't you fret
I'll treat you better
Than all those other guys
I'm different from the rest
I won't tell you any lies
I've been looking for the one
It took me lots of tries
No need to look anymore
Because I found my prize
Our love is more rare
Than a solar eclipse
You take me so high
Like I was flying a blimp
Yeah, I love the feeling
When you kiss my lips

And every time my heart beats
You've got it doing flips
This is our love story
We can write it together
I can be your hero, baby
We can make it through whatever
If things ever go wrong
Please never say never
We were meant to be, girl
This is forever

(Chorus)
