Hey!

It doesn't really matter where you go
It makes no difference, baby, who you know
This thing has gotten way out of control

Hey!

It doesn't really matter who you are
You might as well be a super star
'cause everything has gone way too far, oh-oh-oh

It's the strangest thing

It's getting stranger and then
It's getting harder to win
It's getting digital then
It's starts happening all over again

Hey!

It makes no difference, baby, what you say
It's getting weirder every day by day
I think that something's really gone astray

Hey!

It really doesn't matter what you try
It's getting even harder to deny
'cause reality has just said good-bye

It's the strangest thing

It's getting stranger and then
It's getting harder to win
It's getting digital then
It's starts happening all over again
It's getting stranger and then
It's getting harder to win
It's getting digital then
It's starts happening all over again

It's the strangest thing
