Visit "[Fallin' In Love](#)" on MotoLyrics.com

I spent a lot of time
Looking for the right thing
In and out, around the world
Searching, I think I found it

Fallin' in love
Hoping that you say you love me
I got all this love
When you get it, you got to keep it

Fallin' in love
Hoping that you say you want me
I got all this love
When you get it, you got to keep it

Sexually you seemed to be
Everything I wanted in a man
Treated me respectfully
Holding me, showing you care
Can it be, you and me
Making me happily endlessly
Baby yeah

Fallin' in love
Hoping that you say you love me
I got all this love
When you get it, you got to keep it

You know it gets harder
To let you go when you got to go
And I know you gotta go sometimes
But I can't get you off my mind
Put your hand around my waistline
And show me what your kisses taste like
Taste like sweet rain falling down

Fallin' in love
Hoping that you say you love me
I got all this love
When you get it, you got to keep it

If I close my eyes tonight

Just know that I love you forever
You are the sun, you are the joy in my life
And now that you are here
Let me let you know how I love you so
You're the only one I want forever
Since I've fallen in love with you

Falling in love
Got to show you how I feel
To let you know that this love is real

Falling in love
Got to show you just how I feel
To let you know that this love is real

Falling in love
(Got to show you just how I feel)
I'm thinking of love
Since I've fallen in love with you
All this love
(To let you know that this love is real)

Falling in love
(Got to show you just how I feel)
I'm thinking of love
Since I've fallen in love with you
All this love
(To let you know that this love is real)

Falling in love
(Got to show you just how I feel)
I'm thinking of love
Since I've fallen in love with you
All this love
(To let you know that this love is real)
