You said you waited all your life
For that special one
And when you met me, your life had just begun
Now I can't figure out what it is that you want
(No, no, no, no, no)
Cause you say you love me
But you show that you don't
How you gonna love me

How you gonna love me baby
Living in the past
How you gonna love me baby
Holding on to love that didn't last

But now you're telling me
You don't know what to do (Do)
You've been talking to your friends
And they got you confused (Confused)

I just can't understand
Why you won't open your eyes
(No, no, no, no, no)
When you say you love me
But I feel it's a lie
How you gonna love me

How you gonna love me baby
Living in the past
How you gonna love me baby
Holding on to love that didn't last

How you gonna love me baby
Living in the past
How you gonna love me baby
Holding on to love that didn't last

If you really love me
You gotta let me know
How you gonna love me
You gotta let it go

If you really love me

Open up your eyes
How you gonna love me
Living in a lie

How you gonna love me baby
Living in the past
How you gonna love me baby
Holding on to love that didn't last
