Ah, it feels good  
Ah, don't, don't go there  
Ah, you're not foolin' me  
Listen

By the way you dress  
By the way you talk  
By the friends you keep the Benz you bought  
How you treat ya ex  
How you treat your child  
I peeped your style from half a mile

Would you think of me  
Sleep with someone else?  
Would ya take the time and protect yourself?  
How you lied to her?  
Would ya lie to me?  
I can tell if it's meant to be

I can tell when guys are all the same  
I can tell it when they're playing games  
I can tell what kind of guy you are  
I can tell it, I can tell it

I can tell what you really want  
I can tell it when it's all a front  
Gotta know before I go too far  
I can tell it, I can tell it

Would you raise your hand?  
Would you raise your voice?  
Do you act brand new in front of your boys?  
Did you finish school  
Or did you drop out?  
Have you opened up a bank account?

'Cause if I hang out  
At the end of the week  
Do I detect a jealous streak?  
Do you go for self  
Or you aim to please?  
'Cause I can tell from what I see

I can tell when guys are all the same  
I can tell it when they're playing games  
I can tell what kind of guy you are  
I can tell it, I can tell it

I can tell what you really want  
I can tell it when it's all a front  
Gotta know before I go too far  
I can tell it, I can tell it

Boy, I can see what you try to conceal  
And boy I can tell when you're keeping it real  
If I'm gonna love you  
I gotta see straight to your heart

I can tell when guys are all the same  
I can tell it when they're playing games  
I can tell what kind of guy you are  
I can tell it, I can tell it

I can tell what you really want  
I can tell it when it's all a front  
Gotta know before I go too far  
I can tell it, I can tell it

I can tell when guys are all the same  
I can tell it when they're playing games  
I can tell what kind of guy you are  
I can tell it, I can tell it

I can tell what you really want  
I can tell it when it's all a front  
Gotta know before I go too far  
I can tell it, I can tell it

I can tell what you really want
