oh whoa yeah yeah yeah  
riding down eighty five  
cruising in my new ride  
i got a headache, i start to shake  
praying that my heart won't break  
i'm reminiscing on the fight we had  
i'm not use to feeling sad  
came to myself, my baby ain't this mad  
how could we get so worked up  
about this stupid crap  
in this beautiful relationship  
i know we're better than that  
i'm disappointed,  
i expected more from you and i (i)  
lets make up honey  
before i break down and cry

baby baby i'm sorry  
please please believe  
that i won't leave you girl  
cos you're the only one for me  
the more and more i think  
on how you changed my life  
you made me a better man  
i can see you baby as my wife  
baby baby i'm sorry  
please please believe  
that you're my heart desire  
we can work this out and you will see  
lets get it back together and put this all behind  
the things i can do in your life  
girl will blow your mind

i'm so anxious to see how far it goes (goes)  
this little complication won't make me walk out the door  
i won't lose a girl like you this time i (?)  
come over here right now we need to sit and talk a  
while  
now baby i know we've had so many ups and downs  
lets get beyond this we need to turn it all around  
you said it yourself i'm the best man that you've ever

had  
glad you understand it girl  
we need to put this all in the past

baby baby i'm sorry  
please please believe  
that i won't leave you girl  
cos you're the only one for me  
the more and more i think  
on how you changed my life  
you made me a better man  
i can see you baby as my wife  
baby baby i'm sorry  
please please believe  
that you're my heart desire  
we can work this out and you will see  
lets get it back together and put this all behind  
the things i can do in your life  
girl will blow your mind

baby why we argue  
seems so dumb to me to  
i put myself aside baby just to please you  
i'ma be your man  
i'll treat you the best i can  
(?) that part right back one more time  
so you can hear it again  
baby why we argue  
seems so dumb to me to  
i put myself aside baby just to please you  
i'ma be your man  
i'll treat you the best i can  
(?) that part right back one more time  
so you can hear it again

now that we're finish talking  
hope you know that i ain't walking  
i'm gonna be your man forever and ever more  
why yes but i'il be singing this song (to you)  
baby you know that's what i'm here for (here for)  
now what did we learn from everything that we've been  
through  
say what about me, i appreciate the love from you  
so if you ever question if how i feel is true  
this just sit back and listen to the words i say to you

baby baby i'm sorry  
please please believe  
that i won't leave you girl  
cos you're the only one for me  
the more and more i think

on how you changed my life  
you made me a better man  
i can see you baby as my wife  
baby baby i'm sorry  
please please believe  
that you're my heart desire  
we can work this out and you will see  
lets get it back together and put this all behind  
the things i can do in your life  
girl will blow your mind

baby baby i'm sorry
