This is the day pain will take over my body  
A pleasure that I have never known before  
My mind stops working and illusions become reality

I see a demonized girl, black leather and red lips  
I feel the pain, she cuts my arms  
and nails pierce my legs

Sadistic delight while  
she drinks my blood  
This pain is not real,  
until chains break and my body dies

Satanic whore begs  
For more of my blood  
I drink hers, and she drinks mine

And Satan we obey

Untamable desire to suffer,  
I satisfy her, and taste the blood  
Her screams divert me  
I see a helpless body on the ground

For Satan is our master  
She and I, I rape her soul  
Diabolical beauty let me suffer  
Torture my body, erotic pain

Her blond hair now red of blood  
Time to stop the torturing  
And as she takes off her mask  
I raped the girl and pierce her soul
