Your momma says that through the week  
You can't go out with me  
But when the week-end comes around  
She knows where we will be

Kissin' in the back row of the movies on a Saturday  
night with you  
Holding hands together you and I, holding hands  
together, ooh yeh  
Smoochin' in the back row of the movies on a Saturday  
night with you  
We could stay forever you and I, we could stay forever  
you and I  
Smoochin' and a-kissin' in the back row of the movies

Every night I pick you up from school  
'Cos you're my steady date  
But from Monday through to Friday night  
I leave you at the gate, yeh  
Oh we can't have too much fun until your homework's  
done  
But when the week-end comes, my friends know where  
I'll be

Kissin' in the back row ....

Sit alone at night and watch TV but I think of you  
And now and then the gang drops by we share a joke  
or two, yeh  
But they don't knock on my door after Friday night for  
sure  
Cos when the week-end comes they know just where I'll  
be

Kissin' in the back row ....
