"Like Sister And Brother"

It's such a small town, girl, news travels faster than a
sigh
Everybody wants to know about the next man's secret
So every time we meet upon the street we've got to
keep it

Like sister and brother, we'll wave to each other
We don't want all the world to know we are really
lovers
So we'll talk about the weather, til we're alone
together
Then all the world will fade and die and baby there is
only you and I

Sometimes it's hard to hide pent up emotions we both
feel
I wanna tell the world I love you but I dare not say it
Until he lets you go there's only one way we can play
it

Like sister and brother, we'll wave to each other
We don't want all the world to know we are really
lovers
So we'll talk about the weather, til we're alone
together
Then all the world will fade and die and baby there is
only you and I

Oh, like sister and brother, we'll wave to each other
We don't want all the world to know we are really
lovers
So we'll talk about the weather, til we're alone
together
Then all the world will fade and die and baby there is
only you and I

Sister and brother, we'll wave to each other
We don't want all the world to know we are really
lovers
So we'll talk about the weather, til we're alone
together
