Drifters
"You're More Than A Number"

Oh, yeah, yeah
YouÂ're more than a number in my little red book
YouÂ're more than a one night date
All I had to take me was just one look
My heart began a thumping, babe, you had it jumping

Cos youÂ're more than a number in my little red book
YouÂ're more than a one night stand
In case you get to thinking that youÂ've been took
YouÂ're more than a number written in my little red book

Oh baby, give us a chance
DonÂ't let the small town rumours
End our first real romance
Now IÂ'll admit IÂ've loved a few
But there was never one like you
So darling, donÂ't believe the things they say

YouÂ're more than a number in my little red book
YouÂ're more than a one night date
All I had to take me was just one look
My heart began a thumping, babe, you had it jumping

Cos youÂ're more than a number in my little red book
YouÂ're more than a one night stand
In case you get to thinking that youÂ've been took
YouÂ're more than a number written in my little red book

Oh baby, you gave me a sign
I threw away the numbers
Of those old flames of mine
And now theyÂ're trying to put you wise
Knock me down in my girlÂ's eyes
Oh darling, donÂ't believe the words they say

YouÂ're more than a number in my little red book
YouÂ're more than a one night date
All I had to take me was just one look
My heart began a thumping, babe, you had it jumping

Cos youÂ're more than a number in my little red book
YouÂ're more than a one night stand
In case you get to thinking that youÂ've been took
YouÂ're more than a number written in my little red
book

Oh, youÂ're more than a number in my little red book
YouÂ're more than a one night date
All I had to take me was just one look
My heart began a thumping, babe, you had it jumping

Cos youÂ're more than a number in my little red book
YouÂ're more than a one night stand
