Oh..oh Lord, all alone again
you say it's been this way
since you don't know when
There a lot of places;
a woman like u could go and see.
Why your man won't take u
it's a mystery to me.

Oh I wish, how I wish, (Chorus)
It was me u loved!
Baby I wish, how I wish;
it was me u loved!

(Honest to God you're such a pretty thing all locked up
in the crib, all by yourself)
He comes home from work
just to eat and sleep
he even makes u promises
he never keeps;
Yet u stand by him,
all faithful as can be.
Can't u see you'd be better off
with a man like me?
(Chorus)

He's running the streets at night
(chasing after every skirt)
Chasing after every skirt.
All night long
doing his dirty dirt (oh yes he is)
U sitting home alone,
while your man; he's out having fun.
(Chorus)

I want u by my side
with every step I take;
I want u with me,
for the rest of my days.
(Chorus)
