(David Jones)
Immortal Music (BMI)

Lead Vocal: Davy Jones

If I had a penny for every time I thought about you
I would be a millionaire
I would send you flowers each day
And I would show you in every way
Just how much I really care

The summer sun and the winter snow,
The autumn leaves let the spring rains know
Just how much I need your love
And if I knew that my time was near,
And you were there,
I would have no fear
Your name would be my dying prayer

It's not too late
To turn this ship around
To sail into the wind my love
Before we run aground
It's not too late
To say that I love you
And it's not too late for you, my love
To say you love me too
(It's not too late)

If I was a rich man's son
I would work till the day was done
Just to prove my love was true
I would take you for my wife
And I would love you all my life
And I would never leave or be untrue

It's not too late
To turn this ship around
To sail into the wind my love
Before we run aground
It's not too late
To say that I love you

And it's not too late for you, my love
To say you love me too
(It's not too late)

You know our future and your feelings
And the love that I have for you
They're always in my heart and on my mind
A never ending love affair
We'll go together everywhere
Our love will last till the end of time

You know our future and your feelings
And the love that I have for you
They're always in my heart, they're on my mind
A never ending love affair
We'll go together everywhere
Our love will last till the end of time

It's not too late
To turn this ship around
To sail into the wind my love
Before we run aground
It's not too late
To say that I love you
And it's not too late for you, my love
To say you love me too
(It's not too late)

It's not too late
To turn this ship around
To sail into the wind my love
Before we run aground
It's not too late
To say that I love you
And it's not too late for you, my love
To say you love me too
(It's not too late)

It's not too late (it's not too late)
It's not too late (it's not too late)
It's not too late to turn this ship around
